What is Helsinki Chemicals Forum?

Helsinki Chemicals Forum (HCF) is an independent non-profit forum aimed at promoting chemicals safety and chemicals management globally through an annual conference in Helsinki, the home city of the European

HCF & SMCR 2019

Chemicals Agency (ECHA). It is financially supported by the City of Helsinki and different Ministries of Finland and logistically supported by the Finnish Fair Corporation. The Helsinki Chemicals Forum is an independence forum organized by the Chemical Forum Association in cooperation with the European Chemicals Agency (ECHA), the European Commission, the European Chemical Industry Council (CEFIC), the Finnish Government with partners including the City of Helsinki, the Chemical Industry Federation of Finland and the University of Helsinki. The annual conference in Helsinki is built around high-profile panels and keynote presentations as well as related debates. The themes for the seminar are selected for their global relevance and topicality by the HCF Programme Committee that brings together representatives from stakeholders in chemicals regulation from the most developed countries. The Advisory Board validates the programme and advises the Secretary General – Geert Dancet, former Executive Director of ECHA - in his leadership role.

What is the SMCR?

The Summit Meeting on Chemical Regulations in Asia Pacific (SMCR) which was founded by the CIRS Group is regarded as the pioneer summit in China to communicate chemical regulations in Asia Pacific region. The first Shanghai Summit Meeting was held in 2011, and has won intense support from competent authorities from China, Japan and Korea since then. SMCR has rapidly become one of most influential chemical regulatory conferences in Asia. SMCR invites chemical regulatory experts, officials and industry representatives to share chemical regulatory updates and compliance solutions with an aim to assist collaboration among countries in Asia Pacific region, build transparent sharing of regulatory updates and enforcement measures, and promote the safety and sustainability of chemical industry in Asia Pacific region.
